

Strategic Plan → School Improvement Plan

Part 1

Our Purpose: To educate with excellence, the whole child, so that they might grow up into the full maturity of Jesus Christ.

Our Vision: We WILL TELL the next generation of the Lord; His power and the wonders He has done. Psalm 78:4

Our Strategic Priorities:

1. This Next Generation:

We will equip our current generation of community members to impact the next generation of those within our wider Morisset community (and beyond).

2. Leading Practices

We will equip our staff and leadership in their capacity to serve and educate those who are taking part in their learning journey within our school community.

3. An Authentically Loving Community

We will continue to work together as a “village” to foster, and continue building, a community which is recognised for its loving, engaged, serving and learning authenticity.

4. Future Growth and Viability

We will grow our school enrolment capacity and build our financial viability. We will explore new possibilities in our endeavour to expand opportunities for our school community and our educational influence and voice within our local community.

We are about the **WE** – the community, especially this current generation

We are about the **TELLING** – the impact on our community

We are about **EXCELLENCE** - being the best we can be – the educators/the village/the community who are in for the learning journey

We are about the **WANTING** - what is next – the wanting what God wants “stuff”.
